Salesforce Developer | Pune, India | [Email](#) | [LinkedIn](#) | [Portfolio](#) | [GitHub](#) | +91-8237919713

Summary

Salesforce Developer with 4+ years of experience delivering enterprise CRM, telecom order management, and Service Cloud solutions using Apex, OmniStudio, Flow, and REST integrations. Experienced in Agentforce implementations, AI-driven customer service solutions, and scalable automation for telecom and insurance clients, including a 25% reduction in L1 service tickets and migration of 50,000+ legacy records.

Technical Skills

- **Salesforce Development:** Apex, LWC + Triggers (Basic), OmniStudio FlexCards, OmniScripts, DataRaptors, Custom Metadata
- **Automation & Configuration:** Flow, Validation Rules, Approval Processes, Dynamic Forms, Permission Sets, Sharing Rules
- **Integration:** REST APIs, Named Credentials, OmniStudio Integration Procedures, External System Integration
- **Salesforce Clouds:** Sales Cloud, Service Cloud, Experience Cloud (basic exposure), Email-to-Case, Web-to-Lead
- **Agentforce & AI:** Agentforce, Prompt Engineering, AI Agent Design, Agentforce Actions, Einstein Vector Search, RAG

Professional Experience

Cognizant

Jun 2022 – Present

Salesforce Developer

Telstra | Telecom | Jul 2023 – Present

- Developed reusable Lightning Web Components and OmniStudio FlexCards for telecom order lifecycle stages including service qualification, technician assignment, and installation scheduling, improving order visibility and processing efficiency.
- Designed a bulkified Apex trigger framework to manage high-volume telecom order lifecycle events while supporting reliable transaction processing.
- Built Agentforce conversational topics that reduced L1 service tickets by **25%**, improving customer-service automation and reducing manual support effort.
- Implemented OmniStudio Integration Procedures and Flow-based eligibility validations to orchestrate order hold and resume processes during validation failures or resource unavailability, ensuring only qualified orders reached external provisioning systems.

Salesforce Administrator

Unum OS | Insurance | Jun 2022 – Jun 2023

- Developed Apex batch processes for large-scale insurance policy data processing and automation.
- Migrated **50,000+ legacy policy records** using Data Loader with validation rules and duplicate prevention, improving data integrity and historical record availability.
- Implemented Service Cloud automation for claims workflows to streamline case processing and improve turnaround time.
- Built multi-level approval flows for claims processing, supporting compliance-driven business workflows.
- Configured role hierarchies, permission sets, and sharing rules to enforce region-based and role-based access controls for enterprise data security.

Featured Project

AI Customer Service Agent – Salesforce Agentforce

[GitHub](#)

- Built an autonomous AI banking customer-service agent on Salesforce Agentforce covering 5 topics: account balance, transactions, card blocking, insurance FAQs, and prompt defence.
- Integrated Invocable Apex, dynamic SOQL, Einstein Vector Search, RAG, and OTP authentication to support secure, context-aware customer interactions.
- Achieved a **100% pass rate across 10 test scenarios** validating core conversational and transactional use cases.

Certifications

Salesforce Certified Administrator

Salesforce Certified Platform App Builder

Salesforce Certified Service Cloud Consultant

Salesforce Certified Agentforce Specialist

Salesforce Certified Platform Developer I

Salesforce Certified JavaScript Developer I

Salesforce Certified OmniStudio Consultant

Education

Bachelor of Engineering (B.E.) – Information Technology

Savitribai Phule Pune University
